ECO- BOOST PROJECT

(2023-1-BG01-KA220-VET-000161861)

START OF THE ECO- BOOST SURVEY

ECO-BOOST partnership starts a needs assessment among the target groups, beneficiaries, and stakeholders of the project: educators/trainers, business, associations; public administration, VETs NGO sector representatives; associations working with low skilled unemployed VET learners.

Take the survey and help us in the process of mapping of existing gaps and needs in the four domains:

Construction

Furniture & Textile

Healthcare

Electricity

Co-funded by the
European Union

The project Employment and Career Opportunities for Boosting Environmental Sustainability Training is co-funded by the European Union, ERASMUS+ Programme under Grant Agreement number: 2023-1-BG01-KA220-VET-000161861

FOLLOW ONE OF THE LINKS TO ACCESS THE SURVEY IN YOUR LANGUAGE:

BULGARIAN

ITALIAN

TAKE PART IN THE ECO- BOOST ROUNDTABLE EVENTS!

If you are representative of one of the four domains (*Construction, Furniture & Textile, Healthcare, Electricity*), VET, association, or public administration representative, join us in the upcoming ECO- BOOST Roundtable events!

The event will provide opportunities for participants to share their experience and needs, when it comes to the most crucial green skills for company employees within the four focus areas and to contribute to the design of the Green Skills Toolkit!

Co-funded by the

NORDPROJEKTE -KAUFMANN&PARTNER

Nordprojekte-Kaufmann & Partner has been working as a project-developing and -managing enterprise for nearly 20 years. The company particularly addresses the pressing social problems that are caused by the rapid development of the digital knowledge society.

Nordprojekte has a wide range of experience in the implementation of European projects in the field of the European labor market and VET programmes, the community programmes "EQUAL" and "XENOS". The main competence of the company is in development and management of holistic teaching and learning materials in vocational and general education.

When it comes to the ECO- BOOST Project, Nordprojekte leads WP2 "Development of Green Skills Toolkit" and is in charge of developing and designing the Green Skills Framework and Toolkit.
